e-Mail info@toxintechnology.com

Dear New U.S. Customer:

The Staphylococcal enterotoxins, Ricin and Abrin are on the Select Agents list covered in 42 CFR 73. This means that for us to be able to sell them to you, you must send us a completed Intended Use Declaration (IUD). This form is used by us to verify that you have a legitimate need to possess these toxins (42 CFR sections 73.3 and 73.16). Before, or at the time you place your order, please download the pdf. After you have completed the pdf and signed it, it may be returned to us by either email or fax. We must have it prior to completing and shipping your toxin order.

Thank you,

Toxin Technology
